

Increase Interactivity

The eBeam Inscribe™ 200e wireless tablet allows users to perform familiar mouse functions and utilize all the features and functionality of standard software applications from anywhere in a conference room, classroom or large meeting space. The tablets are lightweight and compact but provide ample workspace for efficient desktop and program navigation and input.

Through a seamless integration with eBeam Software, the Inscribe 200e offers a unique dual input feature with the tablet and the Interactive Stylus.

While one user is drawing with the tablet, another at the board can simultaneously use full mouse functionality to drag in images, edit strokes, or set up a shared meeting.

Encourage participation from anywhere in the room with eBeam Inscribe.

Highlights

Features

- Full integration with eBeam Software
